Democrat, for Florida State House
District 100

Why James Oaksun

is the Right Choice for State Rep

The Problem: Politicians Are Failing Us

What do we really want from our elected representatives?

We want three things:

- ✓ Don't make matters worse,
- ✓ Fix what's broken, and
- ✓ Get us ready for the future.

Now, how well are both major parties doing at this?

The bottom line is, elections are about the future. And politicians of both major parties – the Republicans mainly (since they're in charge), but the Democrats also (to a lesser degree) – are failing us.

It's time for some changes.

Why the Republicans and Chip LaMarca Have Proved to Be the Wrong Solution:

The Republicans have been in control in Tallahassee for 28 years.

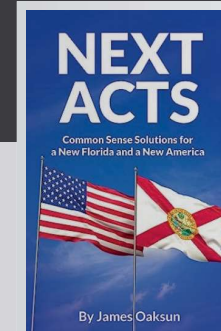

While they've done some good things, in recent years they have veered in a different and more radical direction.

LaMarca votes with the most extreme elements of the Republican caucus more than 90 percent of the time.

In 2023 alone, they passed (with LaMarca's affirming vote in nearly every case) more than 20 bills, signed into law, that have made life worse for millions of Floridians. (See JamesOaksun.com/repeal for the whole list.)

Further, they have neglected critical core functions of government, and failed to prepare us adequately for the future.

Why James Oaksun's Common Sense Platform is the Right Solution:

James wrote a whole book

about a new path forward for Florida.

His three-part solution for the long term is to:

- ✓ Repeal the hurtful laws passed in recent legislative sessions,
- ✓ Repair key areas of governance, and
- ✓ Prepare us for the realities of mid 21st-century life.

Our immediate priorities must be to:

- ✓ Reform Property and Auto Insurance, and address the double-digit rate increases we have all been receiving,
- ✓ Reduce Homelessness and Improve Housing Affordability, and
- ✓ Increase Personal Liberty, and lessen State interference in our lives.
